

INTERNSHIP PRESENTATION

Professionalism & Power Skills Job Simulation

Gaurav Mishra

Roll No.: 25SCS1003000831

B.Tech (CSE) | Batch 2025–2029

School of Computer Science and Engineering

IILM University, Greater Noida, U.P.

Candidate & Activity Overview

Student

Gaurav Mishra | Roll No. 25SCS1003000831

Academic Programme

B.Tech (CSE) | Batch 2025–2029

Simulation

Professionalism & Power Skills Job Simulation

Completion

September 9, 2026

Verified task areas

First impressions and communication • Teamwork and problem solving

Certificate-Supported Scope

- The uploaded certificate identifies the activity as a Forage Professionalism & Power Skills Job Simulation.
- It records practical tasks in first impressions and communication.
- It records practical tasks in teamwork and problem solving.
- The certificate does not state an employer department, technical stack, live project, or production deployment.

Why These Skills Matter

First impressions

Professional introductions, confidence, appropriate tone and attentive listening.

Communication

Clear purpose, concise wording, respectful language and active listening.

Teamwork

Shared goals, coordination, reliability and task ownership.

Problem solving

Define the issue, consider options and choose a constructive next step.

Reflection

Review performance and convert feedback into a specific improvement action.

Project Introduction

Project title

Professional Workplace Communication and Team Problem-Solving Simulation

An academic representation of the verified learning areas in the certificate.

Core idea

Scenario → skill identification → response planning → communication → collaboration/problem solving → reflection → improvement action.

Problem Statement & Proposed Solution

Problem

Students may know communication and teamwork concepts but lack a repeatable method for applying them in realistic situations.

Proposed solution

Use a six-stage scenario workflow that makes professional behaviour observable, explainable and reviewable.

Project Objectives

- Turn professional-skills concepts into observable actions.
- Provide a consistent process for communication and teamwork scenarios.
- Apply structured problem solving to workplace-style situations.
- Use reflection to identify strengths and improvement areas.
- Build confidence for academic teamwork and an initial professional role.

Project Architecture

Professional Workplace Skills Simulation - Project Architecture

Methodology / Workflow

Simulation Workflow

The cycle can be repeated with new scenarios to build consistency and confidence.

Major Modules

01

First Impressions

Practical scenario-based application.

02

Communication

Practical scenario-based application.

03

Teamwork

Practical scenario-based application.

04

Problem Solving

Practical scenario-based application.

05

Reflection

Practical scenario-based application.

Integrated outcome

Professional response + constructive collaboration + actionable reflection.

Implementation Logic

START

Receive workplace scenario

Identify objective and stakeholders

Select relevant skill

Plan and communicate response

Collaborate / solve

Review outcome and feedback

Record improvement action

END

Testing & Results

Scenario review

Five review cases were defined: first impression, communication, teamwork, problem solving and reflection.

Evaluation criteria

Clarity • Respect • Cooperation •
Ownership • Logic • Actionability

Result

The framework is suitable for repeated practice and aligns with the two task areas explicitly recorded on the certificate.

Challenges & Solutions

- Unclear situation → clarify the objective before responding.
- Professional tone → use neutral, respectful and concise language.
- Competing team priorities → focus on the shared goal and take ownership of a realistic task.
- Assumptions in problem solving → separate known facts from assumptions and compare options.

Skills & Learning Outcomes

- Professional communication and active listening
- Positive first-impression awareness
- Team coordination and task ownership
- Structured and constructive problem solving
- Self-reflection and continuous improvement
- Greater confidence for academic and early-career situations

Certificate of Completion

Inspiring and
empowering
future professionals

Gaurav Mishra **Professionalism & Power Skills Job** **Simulation**

Certificate of Completion

September 9th, 2026

Over the period of September 2026, Gaurav Mishra has completed practical tasks in:

First impressions and communication
Teamwork and problem solving

Tom Brunskill
Co-Founder of Forage

Future Scope & Conclusion

Future scope

Add conflict-resolution and meeting scenarios; use peer/mentor rubrics; track repeated attempts; combine professional-skills practice with technical projects.

Conclusion

The simulation strengthened practical communication, teamwork and problem-solving behaviours. These skills complement technical education and support readiness for future academic and professional work.

Thank You!

Gaurav Mishra
